A RESOLUTION TO SUPPORT THE MANAGERS MOBILITY PARTNERSHIP
EFFORT TO KICK OFF A MULTI-CITY VISIONING PROCESS TO
CREATE A NORTH-SOUTH BICYCLE ROUTE, FROM
REDWOOD CITY THROUGH MOUNTAIN VIEW

WHEREAS, the cities of Menlo Park, Mountain View, Palo Alto, and Redwood City face transportation and mobility challenges in our communities in the wake of regional population growth and economic expansion; and

WHEREAS, the managers of these four cities have agreed to work jointly to address these challenges, through the Managers' Mobility Partnership; and

WHEREAS, enhancing the bicycle network and associated infrastructure is a crucial component of comprehensive transportation planning; and

WHEREAS, data shows biking collisions disproportionately affect disadvantaged people in our region, and

WHEREAS increasing the number of bicycle commuters is a shared goal of the four cities in the Managers Mobility Partnership; and

WHEREAS, an interconnected regional network of bicycle routes is necessary to increase the number of people who choose to bicycle as a form of transportation;

NOW, THEREFORE, the City Council of the City of Mountain View does hereby resolve as follows:

1. Mountain View will begin a collaborative process of identifying a high-quality, safe, north-south Mid-Peninsula bicycle corridor which traverses the four partner cities of the Managers' Mobility Partnership.

2. Each city will engage in its own public outreach process and coordinate closely with the other partnership cities to articulate the route for that north-south bicycle corridor.

3. The bicycle corridor will be one that:
   a. is suitable for riders of all ages and abilities;
   b. is direct, and serves as an artery linking the partner cities;
   c. is identified by suitable signage;
   d. provides access to downtown areas, job centers, and other intense land uses as much as possible.
4. In the short term, the cities will collaborate to address gaps, enhance signage, and explore other improvements to the existing bicycle network between communities.
